

SRTA-DLCD

ROOM TEMPERATURE SENSOR

The SRTA-DLCD is an averaging type room sensor complete with LCD temperature display to be used in pairs (wired in parallel). It is intended for use with Hevac brand HTC 3, 5 and Digital series controllers. The sensor has a NTC characteristic (increase in temperature = decrease in resistance) and changes approximately 160 ohms per degree.

Features

- ☐ Fast response time and limited affect by mounting surface.
- ☐ Large terminals for easy wiring.
- ☐ Optional versions with switches and set point potentiometers.
- ☐ Neutral color
- ☐ Fire retardent ABS plastic.
- ☐ Resistant to color fade
