

SRTAAA-H

ROOM TEMPERATURE SENSOR

The SRTAAA-H is an averaging type room sensor to be used in groups of 3 (wired in parallel). It is intended for use with Hevac brand HTC 2 & 4 series controllers. The sensor has a PTC characteristic (increase in temperature = increase in resistance) and changes approximately 42 ohms per degree.

Features

- Fast response time and limited affect by mounting surface.
- Large terminals for easy wiring.
- Optional versions with switches and set point potentiometers.
- Neutral color
- Fire retardent ABS plastic.
- Resistant to color fade

Dimensions
